

GERTRUDE KANEAH ABAGALE

SUMMARY

I am a down-to-earth and dedicated young lady with a relentless commitment to meeting targets and learning new things. I am currently taking courses in JavaScript, Node.js, React JS, Express web framework and Web development and searching for the opportunity to build on my skills through hands on projects in an internship. I envision myself mentoring up-coming generations into Tech as well as encouraging and helping businesses adopt cloud technologies.
